HOT DOG STEAMER 120V

FEATURES

- 120 Volts, 1200 Watts
- 175 Hot Dog/40 Bun Capacity
- 8qt Water Reservoir
- Auto Shut Off When Water Is Low

Made in China

Make the most of your counter space with this 120 volt hot dog steamer from Concession Land. This hot dog steamer will hold hot dogs and buns at desirable temperatures until they are ready for service. A clear front and attractive graphics make for excellent merchandising and help promote impulse sales.

This hot dog steamer has an 8-quart water reservoir that allows for continuous operation with less time spent refilling. A low water indicator light tells you when it's time to refill the reservoir, and an auto shut off feature will automatically turn off the steamer when water levels are too low. This helps prevent damage to the heating element to ensure long-lasting use. A drain valve allows you to simply and safely remove excess water from the reservoir.

This hot dog merchandizer is perfect for use at stadiums, concession stands, fairs, and more.
