Made in China

Popcorn is a crowd pleaser. It is also a money maker! This popcorn machine from Concession Land will help you deliver the airy, buttery snack your customers crave while bringing in great profits for your business.

This popcorn popper has an 8 ounce stainless steel kettle, meaning it can make approximately 32 cups of popped popcorn per batch. It features two independent hinge doors for easy access for serving or making popcorn. Your popcorn product can be easily seen through any of the three glass side panels.

This popcorn machine features simple-to-use three button operation: one to initiate heat, one to control the turner, and one for the warming light. The warming light not only helps to keep popped popcorn fresh and ready for service, it also illuminates the cabinet making for an eye-catching and tantalizing display.
